THE RESULT OF THE INQUEST

Yesterday afternoon Bradford was taken into Justice Owen's court for arraignment on the state's indictment. The preliminary inquest had not yet taken place, the coroner was taken back to jail, and the arraigned men will probably be held in place this morning.

THE AUTOPSY.

Dr. M. M. Kannon, assisted by Dr. Elvial and Coroner Weidon, made a postmortem examination yesterday morning of the body of Dye. The examination showed that there were eleven wounds, one of which was fatal. A bullet entered the shoulder, and pine had entered the perforating the heart, lungs and other organs. Both wounds were fatal. The bullet shot to pieces, causing internal hemorrhage and almost instant death. The stomach was perforated by one shot, the liver was severely lacerated and three

THE FUNERAL.
The body of the dead man was prepared for burial yesterday afternoon, and the funeral will take place this morning at 10 o'clock.

GOLD IN BUENOS AYRES has advanced
 to 290 premium.

No less than eighty-four members of
 the British Parliament are down with
 the influenza.

The President has completed his
 tour. It was a big "swing around the
 circle," and, from beginning to end, a
 success, in spite of a few little local
 jealousies that were aroused at some
 points on the road.

LATER reports of the wounding of
 the Carewiche how that he and Prince
 George had been out on a spree
 "incoog" and that the policeman was

 the heir to the throne of all the
 Russias.

A PARIS doctor has now introduced
 the transfusion of goat's blood as a
 cure for consumption in its early
 stages, and similar claims are made
 for this remedy to those which were
 advanced by Koch. The public will
 hesitate about attaching much credence
 to these artificial cures.

THE SAN FRANCISCO correspondent of
 the Stockton Mail asserts that Judge
 Hoffman is a lunatic, and has been for
 some time, the cause being over indulgence
 in liquor. This charge, which has
 been made before in other quarters,
 is certainly a very grave one, and
 should be either confirmed or disproved.

In this morning's TIMES a gentleman
 offers a reward of \$250 for the arrest
 and conviction of the person who
 poisoned his dog. Under the laws
 of the State, this offense is a felony.
 It is, in any case, a dastardly
 act to strew poison around which may
 kill dogs who are valued family pets.
 If a person wants to destroy any particular
 cur, it would be far more manly
 to take an opportunity to shoot or
 otherwise kill it.

Nor much has been heard of late
 about the sewage question, but it is
 not solved; only temporarily shelved.
 Referring to the fact that Worcester,
 Mass., utilizes its sewage after precipitation,
 the Sacramento Record-Union
 urges that the capital city should do
 the same. It shows that manures are
 coming more and more into use. A
 few years ago people were hired to remove
 stable sweepings; now farmers are
 paying for them. As much as \$500
 a year is paid for the sweepings at
 Agricultural Park in Sacramento. It
 is proposed there to turn the water into
 the river after chemical treatment, to
 render it inoffensive. Why could not
 a similar course be pursued in Los
 Angeles?

A POOR old man, 80 years of age, attempted
 suicide on Wednesday in Los
 Angeles, leaving a plaintive letter for
 the coroner, stating that, after making
 every effort, he was unsuccessful in
 earning a living. The publication of
 this sad case has brought offers of a
 home from one kindly citizen and a
 gift of money from another. There
 is no lack of benevolence in this
 city, as has been frequently proved,
 but how sad it is that a needy
 person has to die—or almost die—to
 bring relief. The trouble is that worthy
 persons, possessed of self-respect, hide
 their misery, and are seldom reached
 through the usual benevolent channels.
 There is plenty of room for volunteer
 philanthropic work in our cities—even
 in such a wealthy city as Los Angeles.

The Chicago Herald says that the
 struggle in Chile is really a commercial
 war, inspired by English interest
 in favor of the insurgents; while
 American merchants have helped the
 Presidential party. The people themselves
 have become involved only as
 dupes for foreign rivals. The Ins are
 ready to concede valuable commercial
 privileges for cash or munitions. The
 insurgents are deriving help from
 London and Liverpool by mortgaging
 the wealth and trade of their country
 to British capital. It will be the natural
 policy of Lord Salisbury to make the most
 of the Chilean situation, pending
 a settlement of the Bering Sea controversy,
 with a new question concerning
 which diplomatic principles are more
 clear. The claim will be set up that
 by permitting the insurgents, who
 have entire control of the Chilean navy,
 to obtain supplies, the United States
 have injured British commerce by
 prolonged blockading of harbors that
 would otherwise be free. Our Chicago
 contemporary is inclined to take a very
 gloomy view of the affair.

RUSK ON CALIFORNIA.

The Tall Secretary Discusses
 His Trip.

EASE IN WORKING LARGE FARMS

What the Agricultural Department is
 Doing to Stamp Out Fruit Pests
 —High Praise of This
 State.

[San Francisco Chronicle, May 14.]

When Secretary Rusk of the Department
 of Agriculture was visiting San
 Francisco recently with the Presidential
 party, he promised at his first
 leisure to give the readers of the Chronicle
 his estimate of California as an
 agricultural and horticultural State.
 It was thought that his reputation as
 an expert farmer, as well as his position
 at the head of the Agricultural
 Department, would give value to these
 views. He has now fulfilled this promise
 by sending the following notes and
 conclusions of his trip:

No man can form any idea of a
 correct estimate of the wonderful
 resources, the marvelous productiveness
 and the inexhaustible wealth of California
 unless he visits this continent
 between the mountains and the sea
 and investigates, sees, touches and
 tastes for himself. I, perhaps, as an
 officer of the Government have had
 more material of an authentic nature
 from which to form an idea of the
 mineral and agricultural wealth of
 California without seeing it than almost
 any other man in the East during
 the past few years, and I am now
 ready to confess that with all the information
 at my command my trip
 through the State has been a succession
 of great surprises.

Return from this visit, hurried as it
 is, wonderfully benefited and prepared
 to intelligently meet any and every
 question or vexed question arising in the
 work of my department, having received
 knowledge applicable to the cases from
 your people. The eastern man still
 looks upon California as the land of
 gold, for so long has California been
 associated in our minds with the production
 of precious metals that even now her
 importance as an agricultural State is
 but little understood by most of our
 people; that it is the third State in the
 Union in wheat production; that it includes
 within its borders some of the most
 prosperous farmers in the United States;
 that it owes to agriculture the largest
 part of that wonderful increase in its
 taxable values, which bring them up to
 more than \$300,000,000; that from San Francisco
 alone there is shipped abroad over
 20 per cent. of the total flour and wheat
 exports of the United States; that it is
 the second State in number of sheep,
 with an annual average export of
 \$5,000,000; that last year it exported
 \$10,000,000 worth of fruits was shipped to
 the eastern markets; that the value of
 its vineyards alone aggregates \$80,000,000,
 and that all this agricultural wealth
 is produced from a comparatively small
 area of land, the State of California
 alone there is shipped abroad over
 20 per cent. of the total flour and wheat
 exports of the United States; that it is
 the second State in number of sheep,
 with an annual average export of
 \$5,000,000; that last year it exported
 \$10,000,000 worth of fruits was shipped to
 the eastern markets; that the value of

A Remarkable Series of Crimes Perpetrated by a Frenchman—Other News from Foreign Fields.

By Telegraph to The Times.

LONDON, May 15.—[Copyright, 1891, by the New York Associated Press.] Though Parliament has completed the discussion of all the original clauses of the Irish Land Bill, much remains to be done with the measure after the Whitehall recess. The government has done nothing in regard to the Educational Bill except to decide that it shall be introduced before the session closes.

THE PORTUGUESE CRISIS.

The resignation of the Portuguese ministry, news of which was received today, caused no surprise at the foreign office here. Differences over the policy of dealing with financial troubles rendered the formation of a new ministry desirable. The embassy has received assurances that the change would not interfere with the presenting of the Anglo-Portuguese convention to the Cortez. The Portuguese have every reason to be content with the convention, for Lord Salisbury, in order to strengthen the tottering monarchy's interests, has conceded to Portugal a solid block of territory, 50,000 square miles in area, north of the Zambezi River, obtaining in return only a narrow strip of land testifying the frontier of Mauciland. The terms of the convention are certain to be opposed in Parliament.

IRISH FEUDS NOT SETTLED.

Reports of impending defections from the Parnellite party arise from a movement which originated outside of the Irish members of the Commons, the object of which was to heal the faction feud. Several Parnellites have been expelled from the Commons. The absence of Gray the channel of communications between Parnellites and McCarthys. The overtures for a reconciliation were taken by the McCarthys, as equivalent to an abandonment of Parnell by his principal supporters. No definite proposal reached either side. Gray places the blame for the balking of his endeavors upon the untimely revelation of the overtures.

DAMAGING THE WORLD'S FAIR.

Cable dispatches asserting that it has been decided to abandon the international character of the Chicago exposition, though obviously malignant, operate in retarding the preparations of English exhibitors. The absence of any official statement from Chicago and the want of organized representation here are keenly felt, and may result in the leading industries ignoring the fair.

BLUNT SWORDS USED.

A New Version of the Attack on the Czarevitch.

BERLIN, May 15.—[By Cable and Associated Press.] The latest report received by the Japanese legation here concerning the attack on the Czarevitch is that he and Prince George were returning incognito from a place of amusement when they came in conflict with police officers, who asserted themselves too vigorously until the identity of the princes was revealed. The princes were without escort at the time. The slowness of the Czarevitch's wound is explained by the fact that the Japanese policemen used blunt swords.

ST. PETERSBURG, May 15.—The *Nevoy Vremya*, in an account of an attack on the Czarevitch, says the Japanese natives nearly lynched the assailant, and the police had great difficulty in rescuing him.

LONDON, May 15.—The St. Petersburg correspondent of the Chronicle says it is reported that the Czarevitch was more seriously wounded than is admitted by the authorities. The correspondent adds that the assailant was a nihilist who escaped from Saghalien.

ST. PETERSBURG, May 15.—The

Czarevitch's assailant was a policeman who was especially detailed to protect him. The policeman was overpowered by the assistance of his own companions.

A FRENCH MONSTER.

Arrested for a Long Series of Atrocious Crimes.

PARIS, May 15.—[By Cable and Associated Press.] The police of Landres arrested a man named Meunier for murder and other crimes. Meunier, who is an ex-officer of customs and a widower with two sons, courted a wealthy girl named Jacot, who rejected him because he was poor. Meunier then engaged in a number of robberies, and finally murdered a priest and his servant. Having got some money he removed his suit, but the girl's mother objected to the man's children. Meunier thereupon set fire to the girl's residence, the occupants of which had a narrow escape. Meunier had not been detected in any of these crimes. After another interview with the girl, who then seemed to be willing to marry him, he smothered his eldest boy, and finally shot and seriously injured the girl's brother, who had forbidden the proposed marriage. When arrested Meunier confessed to all but the double murder.

QUINTON'S FATE.

The Commissioner and His Party Were Beheaded.

SIMLA, May 15.—A dispatch received here from Manipuri shows that Chief Commissioner Quinton and officers who lost their lives were not victims of a massacre. Evidence given at the trials recently taking place by several prominent Manipuri insurgents captured by the British troops, proves that the chief commissioner and his colleagues were beheaded by the public executioner, under orders of the Manipuri maharajah. These men were found guilty by the military tribunal which has been in session at Manipuri.

LONDON, May 15.—The Manipuri dispatches show that Chief Commissioner Quinton had no orders as to how he was to remove the Senaputty, but was cognizant of the difficulty, and consulted the commander at Assam as to what course should be taken. Quinton intended to summon the Senaputty and arrest him. A native eye witness deposes that

after a half hour's combat the hands and feet of each person of Quinton's party were cut off and then all were executed in the presence of 1000 Manipuris, including the Senaputty and Jubraj.

A FRONTIER FIGHT.

Friends of a Dead Smuggler Attack Customs Officers.

GIBRALTAR, May 15.—[By Cable and Associated Press.] A patrol of Spanish soldiers and a number of the tobacco company's guards yesterday evening surprised a smuggler near the frontier and attempted his capture. The smuggler opened fire upon the soldiers and guards. The latter returned the fire, killing the smuggler. Today the inhabitants of villages near where the incident occurred, being in sympathy with the dead smuggler and bitterly opposed to those who killed him, attacked a number of guards, firing upon the company's employees and wounding two of them severely. The officers replied by firing on their assailants, killing two and wounding others. Finally the authorities were compelled to summon the military in order to quell the disturbance. The troops were able to separate the combatants, but great excitement still prevails on the frontier and further trouble is anticipated.

A USE FOR THE GOAT.

His Blood Now Said to Be a Cure for Consumption.

PARIS, May 15.—[By Cable and Associated Press.] Prof. Bernheim has submitted his report to the Academy of Medicine regarding experiments made to cure tuberculosis by the transfusion of goat's blood. The professor in his report says that fourteen patients have been treated by this system, and that two of them in the last stage of consumption, died a week after receiving the first transfusion. Prof. Bernheim declares the treatment has an important effect in the early stage of consumption, but adds that it should not be used in the last stages.

FOREIGN NOTES.

The Kaiser in a Runaway—A Narrow Escape.

BERLIN, May 15.—[By Cable and Associated Press.] While Emperor William was driving today in Potsdam his horses bolted and the carriage was hurled against a tree. An adjutant in attendance caught the falling Emperor and saved him from harm.

ANARCHISTS ARRESTED.

ROME, May 15.—Sixteen anarchists were arrested in Ferra. They had planned to pillage and destroy with dynamite, banks, factories and other property.

RATHER MIXED.

LONDON, May 15.—The Duchess of Marlborough gave birth to a girl baby today.

Inquiry in this city this evening, however, fails to confirm the above report. The Duchess is at Blenheim and no word can be had from there.

INFLUENZA'S VICTIMS.

LONDON, May 15.—The Prince of Wales, who has been suffering from influenza, is now convalescent. The health of Gladstone is much improved today.

BUENOS AYRES FINANCES.

BUENOS AYRES, May 15.—Gold further advanced yesterday and closed at 290 per cent premium. The Senate rejected the motion for the appointment of a commission to inquire into the condition of the State banks.

NEW YORK, May 15.—James E. Ward & Co., shipping merchants, received a cablegram today from Buenos Ayres, stating that gold there had reached 380 per cent premium, the highest ever known in Argentine Republic. Ward said this would seem to indicate that something serious has happened there.

OUTRAGES BY ARNANTS.

LONDON, May 15.—A Belgrade telegram reports an Arnant rising in Old Serbia. The Arnants, it is said, are abducting and outraging Christian girls, committing robberies and tortures and indulging in various atrocities. Christians, through fear, have closed their shops and do not venture into the streets.

ROME HOWLS.

ROME, May 15.—*Fanfulla* violently denounces the Louisiana authorities and condemns the New Orleans grand jury's reply to Consul Cortes's letter.

Opposed to Maxwell.

INTERLACHEN (Fla.) May 15.—At yesterday's afternoon session of the Florida Horticultural Society, the following telegram was received from Chicago:

The Horticultural Society of Chicago sends greeting. Have knocked out Maxwell. The society will not confer an appointment now. Whom does Florida want? Why not endorse James D. Reynolds Illinois? Can promise generosity to Florida.

Subsequently a resolution was passed nominating Prosper J. Berckmans of Augusta, Ga., president of the American Horticultural Society, as Florida's choice. The question of relative desirability of other candidates was referred to a committee for investigation and action, subject to a vote of the society as to its first choice.

Accused Bankers in Court.

PHILADELPHIA, May 15.—Gideon W. Marsh, president, and Charles W. Lawrence, assistant cashier of the suspended Keystone National bank were given a partial hearing before the United States Commissioner today after returns to the condition of the bank. Bank Examiner Drew was the principal witness, and he told a startling story of the deception practiced by the accused officers in their endeavor to cover up the shortage in the bank's accounts.

Kentucky Democrats.

LOUISVILLE, May 15.—The State Democratic Convention nominated ex-Congressman John Young Brown of Henderson, for Governor on the thirteenth ballot. McAlford of Lexington was nominated for Lieutenant Governor.

A Cashier Skips.

SAN FRANCISCO, May 15.—Edward E. Coffey, cashier for Osborne & Alexander, hardware dealers, has absconded with about \$2000. He left by steamer May 6, for Honolulu, after his employers had expressed the intention of having his books audited.

THE LONG TRIP'S END.

Arrival of the President in Washington.

Reception Tendered Him Along the Road in Pennsylvania.

Only Brief Stops Made at Cities of the Keystone State.

One Hundred and Forty Speeches Delivered by the President During His Journey—Trainmen Remembered.

By Telegraph to The Times.

PHILADELPHIA, May 15.—[By the Associated Press.] The Presidential train passed through here early this morning en route to Washington, and but fifteen minutes was spent here. There was no demonstration.

ALTOONA (Pa.) May 15.—The special train bearing the Presidential party arrived at 9:30 this morning. The party stood on the rear platform and listened to cheers from the large crowd assembled. The President delivered a short address and was followed by Secretary Root.

HARRISBURG (Pa.) May 15.—From Altoona to Harrisburg there were no special incidents. The ride through the picturesque valley refreshed the party, and when they arrived here there was no appearance of fatigue upon any face. It was 10:15 when the train rolled into the station, and it remained here fifteen minutes. Postmaster General Wanamaker took leave of the party here and boarded a train for New York, where his family sails for Europe tomorrow.

When the President's train hove in sight cannon began firing a presidential salute of twenty-one guns. This was the signal to the great crowd gathered in the Pennsylvania railroad station, which numbered now several thousand people, and all pressed forward with a mighty cheer. Gov. Pattison and other State officials boarded the train and made a general tour of the crowd. After an exchange of courtesies, the crowd was addressed briefly by the President.

The President said that when his train had left him this morning that he had made 188 speeches since leaving Washington he realized the magnitude of his office against the American people and was in hopes he would be permitted to pass through Harrisburg without adding to it. "No one," said the President, "needs to tell you anything about Pennsylvania or its resources. Indeed, my work was very much lightened on this journey, because I found that all people clear out to the Puget Sound had already formed out more about their country than I could possibly tell them. Our journey has been accompanied with the labor of travel, but out of it all I think I have gained a higher sense of the perfect unity of our people and their enduring and all-prevailing patriotism."

He was followed by Postmaster-General Wanamaker and Secretary Root. At the conclusion of the speech-making the train steamed toward Washington, where it is due at 5:30 this afternoon.

ARRIVAL AT WASHINGTON.

WASHINGTON, May 15.—The Presidential train arrived this evening at 5:30, exactly on schedule time. Before the train reached the city, the President summoned to the observation car every person who had accompanied him on his trip, including all railroad employees about the train and made a short address. He said he found he had made 188 speeches since leaving Washington, on the 14th of April, and thought this was a good time to make the number a round 140. He referred to the unprecedented excellence and perfection of the railroad service throughout the entire trip, and said the fact that they had been able to travel over 10,000 miles of territory in a splendidly-equipped train without accident or mishap or one moment's variation from the prearranged schedule must always be regarded as a most remarkable achievement. He returned thanks individually to every person who had rendered service on the train, and gave all the employees a substantial token of his appreciation.

The Postmaster General, Secretary of Agriculture, and other gentlemen of the party also remembered the employees. The arrival in Washington was unmarked by any demonstration beyond the presence at the station of a small knot of officials and several hundred travelers. The President's grandchildren were at the station, and his first greeting was to them. The President and family quickly went to the White House.

COLORED BAPTISTS.

Plain Talk Against Relying on Help from the North.

CHARLOTTEVILLE (Va.) May 15.—[By the Associated Press.] At the Virginia Baptist State convention, representing 200,000 colored Baptists, today, Dr. McKivickers of Toronto, Canada, in urging the raising of a fund of \$5000 for two colored seminaries, drew a gloomy picture of the colored people of the South, asserting that they were worse off now in many sections than they were thirty-five years ago.

In reply Rev. J. M. Armstrong (colored) of Petersburg said: "I am opposed to any more such help from the North. I would say the Home Mission board of New York: 'Put your money somewhere else and let us help ourselves.' If we are ever to stand alone now is the time to do so, so long as our northern brethren look the cradle for us we will be children, and forty years hence we shall be as dependent on northern help as now."

The speech provoked a long and heated discussion.

An Arkansas Feud.

ATKINS (Ark.) May 15.—Menger particulars are received of the murder of Adam and Seth Hattley by Dr. G. H. Home of Van Buren county last Wednesday. A feud had existed between the two families for a long time.

An Old-fashioned Hanging.

TRENTON (Ga.) May 15.—Rufus Moore (colored) was hanged here at noon today. The crime for which he suffered was the murder of Henry Stay in June, 1890. Five thousand people saw the execution.

Pacific Fast Fruit Line.

SAN FRANCISCO, May 15.—The Rio Grande, Santa Fe and Chicago, Milwaukee and St. Paul Railways have effected a combination called the "Pacific Fast Fruit Line," for the

purpose of handling California fruit shipments, and will ship from all the territory north of Bakersfield. The route is from California to Ogden, thence over the Rio Grande Western and the Atchafalaya, Topeka and Santa Fe's Colorado Midland to Denver. From Denver to Kansas City the haul is over the Atchafalaya, Topeka and Santa Fe's main line, and at Kansas City the Chicago, Milwaukee and St. Paul takes hold, conveying the fruit freight thence direct to market. Fruit from points south of Bakersfield will go over the Santa Fe's Atlantic and Pacific route as formerly.

A SHABBY TRICK.

How the Coke Strikers Obtain their Funds.

SCOTTDALE (Pa.) May 15.—[By the Associated Press.] There is no longer a doubt that the independent operators have formed some sort of a combination to support the strikers so that the mammoth Frick works will not be able to undersell them. Operator Hoggett plainly stated today that he would discharge any man who refused to contribute to the strikers' fund. The formidable W. J. Rainey non-union works have been the first to offer to contribute to the strikers' fund for the first time in years. This is the sort of revenge Rainey desires in view of the many contracts he lost to Frick while he had trouble with his men.

The Moorewood Tragedy.

GREENSBURG (Pa.) May 15.—The grand jury today, in the case of J. A. Loe and his deputies, charged with murder at the Moorewood riots, returned a true bill against all except Sgt. Cairns.

FOREIGN FINANCES.

RUSSIA'S PURPOSE IN IMPORTING SO MUCH GOLD.

A German Banker Anticipates No Money Troubles in America, but Expects a Panic in London.

By Telegraph to The Times.

BERLIN, May 15.—[By Cable and Associated Press.] Heavy imports of American gold into Europe by general and Germany in particular have drawn the attention of financiers to this matter. In an interview today with a representative of the Associated Press, Herr Bleichroder, who shares Rothschild's financial power on the continent, said: "All gold coming here from England and France is reshipped to Russia, which country has been drawing heavily from Berlin, and still more heavily from London. In order to protect the Bank of England, so as not to drain its resources, American gold was cabled for. Had the Russian demand been met by the withdrawal of the gold of London and Berlin, the rate of discount of the banks of those cities would have risen 6 or 7 per cent. In the present state of affairs this would simply mean ruin to thousands. We avoided it by buying American gold."

When asked what Russia wanted with all this gold and if she is preparing for war, Bleichroder said: "You can state with absolute certainty that for three years Russia will not think of war. I have received today positive information that she is upon the point of changing her army and it will take three years to do this. I do not fear war, at least from Russia. Look at the condition of the western banks. Look at the London market! It is glutted with South American securities. Not one of those republics can meet its obligations, and the consequence may be a great crash. North American securities and railroad bonds will not be affected except by the general feeling of distrust. You can tell the Associated Press that Americans have no reason to feel nervous about the gold taken away. It will soon float back. Russia has to repay large loans and this is the reason she is accumulating all the gold she can. By and by it must be paid out."

When asked if they will not need gold to perfect the new Russian loan, Henry Bleichroder said: "Neither the Rothschilds, myself nor any other bank will advance a cent to Russia while things are not more secure there than now."

Henry Villard of New York is now in the city. He asserts that the stories about the Russian purposes in visiting Berlin are false. The old story, frequently contradicted, about a row between him and the Deutsche Bank, which is the representative of the German bondholders of the Northern Pacific, is again circulated. Herr Schrader, one of the directors of that institution, said the stories are entirely unfounded.

LONDON, May 15.—The Times believes the Russian government will withdraw £3,000,000 from London in the next month or two, and that it is doubtful whether the Bank of England will be able to draw that amount from America. "Besides which," adds the Times, "there is a strong probability of the partial failure of European crops, which would cause a drain of gold to America in the autumn."

The Alton Boycott a Failure.

CHICAGO, May 15.—It is reported that the competitors of the Alton road have prepared a petition to the board of railroads of the Central Traffic and Trunk Lines association, requesting it either to make the boycott against the Alton effective, or abandon it altogether. It is asserted that the boycott, as now working, is doing the Alton no harm, while it is really injuring the business of other western roads.

Northern Pacific's Deal.

WINNIPEG (Manitoba) May 15.—It now seems an absolute certainty that the Canadian Pacific has purchased the Northern Pacific's lines in Manitoba.

Scottish-Irish Congress.

LOUISVILLE (Ky.) May 15.—The Scottish-Irish Congress today listened to a number of interesting addresses and rejected the old officers.

ST. LOUIS, May 15.—John A. Dillon, for eight years managing editor of the Post-Dispatch, left tonight for New York to assume editorial control of the World.

A Cute Trapper.

(Ontario Observer.)

Mr. Barlow, of North Ontario, is quite a successful trapper of gophers, and when his neighbors fail to snare the pesky little rodents, they go to him for pointers. He, however, had one gopher to deal with which outwitted him for several weeks. Poisoned vegetables of several kinds were placed in its burrow; but it would have none of them. Then a trap was set for it; but, to Mr. B.'s surprise, he found the trap carefully covered over with dirt. This experiment was tried several times with the result that the trap had to be dug up each morning. Finally Mr. B. placed a small mirror behind the trap, and patiently awaited developments. The gopher came out, saw its reflection in the mirror, and thinking it was a companion, started for it and was caught in the trap.

RECOMMENDATIONS

—GIVEN TO—
DR. WOH,
The Celebrated Chinese Physician.

No person will be treated who will not abstain from Opium or Liquors.

For many years I have been troubled with lung disease, which finally ended in asthma and consumption.

I consulted with the best physicians I could find but they did me no benefit, but on the contrary I got worse and worse, until I was told by one of them I could not recover. Dr. Woh took me in this condition. He has now twice cured me entirely, cured me most cordially recommended to all suffering from.

PROGRESSIVE PUPILS.

Creditable Exhibition at the Garfield School.

A DECLAMATORY CONTEST

Three Prizes Awarded—Sparring Tournament at Athletic Headquarters—Notes and Comments—Personals, Etc.

Yesterday was a red letter day in the history of the Garfield school. It was an annual exhibition day of some of the work accomplished by the scholars during the past year, and in the afternoon there was a prose declamatory contest. Hundreds of friends and patrons of the school visited the building during the day and expressed themselves as highly gratified with the striking evidences of the pupils' progress there displayed.

The work of the pupils was exhibited in the main lower corridor, each of the eight grades having a separate exhibit. Leaves are first taken up. The scholar is taught in turn how to make drawings of them, press and mount them, and when this has been accomplished, to write about them. Birds are next studied in a similar manner. The "scratches" are studied as a class, then the "waders," then the swimming birds, birds of prey, and so on. After the birds come flowers. The children pick them, then press and mount them and finally get down their impressions on paper. Illustrations of flowers are also moulded in clay. Some very creditable work of this description was on exhibition. Various parts of birds were also shown modelled in clay, and Almo Taylor went a step further (and did some excellent modelling in wax. This work claims the attention of the first, second and third year pupils. The higher grades confine themselves in this direction to composition work on similar subjects, which are treated of more and more in detail as the student grows older. The work was characterized by care and neatness, and showed evidence of careful training on the part of the teachers.

At 1:15 o'clock the declamatory contest began in Prof. Hamilton's room, which had been prettily decorated for the occasion. It was completely filled with the pupils and their friends. Rev. J. D. Bequa, Rev. J. W. Phelps, Mrs. Addie Camper and Mrs. Willie Thompson, the latter acting in place of Miss Helen E. Amos, were offered by Prof. Hamilton and Miss Martin. The first, Henry McCook's "Tenants of an Old Farm," the second, "Tropical Africa," by Henry Drummond, and the third, "The Bird's Christmas Carol," by Kate Douglas Wigman.

Following is the programme as rendered: Song, "Familiar Bird" (B. R. T.)—Wendell B. Taylor. "Home, Sweet Home" (selected)—Lillian Fawcett. Song, "Little Star"—School (first year). "God, Grant's English" (Mark Twain)—Grace Machin. "Reflections in Westminster Abbey" (Adelstein)—Jeanie Nelson. Song, "Bob White"—School (second year). "Two Views of Life" (Burdette)—Lottie Menner. "The People Who Jump" (Bicknell)—Benny Page. "Victoria, Queen of England" (selected)—Blossom Allen. Song, "Over Field and Meadow"—School (third year). "The American Flag" (Beecher)—Ruth E. Hart. "Spartacus to the Gladiators" (Kellough)—John Stuart Daggett. "Maynard Beckwith" (Song)—Maynard Beckwith. Song, "Before All Lands"—School (fourth year). "Only a Golden Wreath" (selected)—Ivey Menner. "The Wonderful Sack" (Hezekiah Butterworth)—Emma Russell. "Brother Watkins" (selected)—Fred Nash. Violin solo—Hawley Taylor. "Our Experiences with European Guides" (Mark Twain)—Edith Hill. "A Spring Song" (double quartet)—Alice Link, John Daggett, Maggie Tyler, Ruby Fisher, Edward Dwight, Myra Spewer, Hawley Taylor, Maynard Beckwith.

At the conclusion of the exercises the judges retired, and in a short time announced that the first prize had been awarded to John Stuart Daggett, the second prize to Benny Page, and the third to Edith Hill. Superintendent Will S. Moore presented the books to the successful competitors, and thus the pleasant and instructive exercises came to a close.

Similar exercises will be held at the Wilson primary school next Friday.

AMATEURS SPAR.

The Athletic Club's Interesting Tournament.

The sparring tournament of the Pasadena Athletic Club opened most auspiciously at the clubrooms on Thursday evening. There were numerous well-contested bouts for the featherweight and lightweight championships, and the winners were awarded handsome gold medals. The audience, although limited to members of the club, was large.

The tournament opened with four bouts between J. Prince and Charles Willis, featherweights. The judges declared Prince the winner. Frank Orr drew a bye. To afford him some preliminary exercise, R. Monahan, who was not entered in the tournament, stood up against him for four bouts.

The lightweight championship was contested for by Will Moore and Bert Craig and Craig was declared the winner. The final bouts for the featherweight championship were between Orr and Prince. It was a pretty contest and match and was decided in favor of Prince.

Last night the tournament was concluded. Two medals were awarded—a gold one to the man who proved himself the best all-around athlete and a silver one to the second best. Other tournaments of a similar character will follow.

Five copies of the Kansas City Daily Journal are on file in the Young Men's Christian Association, reading room, giving full account of the twenty-ninth biennial convention of the associations of the United States and Canada. The details of the session are highly interesting, and the friends of the association are invited to the rooms to look over the reports.

SANTA MONICA.

SANTA MONICA, May 15.—[Correspondence of THE TIMES.] The members of Fort Fisher Post, G. A. R., met last night and appointed a committee to make the necessary arrangements for observing Decoration day, May 30. On the Sunday preceding, Rev. Mr. Morrison, chaplain of the post, will preach a sermon on the war, and friends in the M. E. Church of this place, Mr. Morrison will preach a similar sermon in the afternoon of the same day at the Soldiers' Home.

The young people of St. Augustine's (Episcopal) church had an enjoyable dim social at the residence of James Kennedy, on Sixth street.

Tennis, polo and cricket promises to be favorite games this summer at the seaside. The peace and good order of our town is such that Judge Twitchell, as Recorder, finds his office almost a slumber. The Judge, however, broke the record this morning by trying a case of trespass, but it was of such a mild type that, after a hearing of the evidence and the defense of Attorney Morgan, it was dismissed.

Your correspondent introduced a friend to our town library last evening, and he pronounced it a very creditable institution. Nine of the fifty new volumes ordered arrived yesterday. A brief inventory of stock now on hand discloses the fact that there are 1053 books on the shelves, and eight magazines, four illustrated papers, seven weeklies and three dailies on the tables.

A gentleman who is a capitalist and not given to blowing, called attention last evening to the fact that there had been quite a number of real-estate deals within the past few months and at fair prices. John Steere has purchased two lots and an inferior house at the corner of Arizona avenue and Third streets for \$8000. M. A. Harris yesterday closed the bargain for nine and one-half acres on the South Side also at a good price. Unless the owner is in a "squeeze" no one is urging the sale of property at low prices.

The lumber for the Arcadia pavilion and restaurant was delivered on the ground today.

They are tidying up generally over toward the depot. The painters are hard at work on the Arcadia, Charley Klumb is giving his house a white coat, Eckert & Hoff are making everything as neat as a new pin, and Beville has contracted for a new dress in terra cotta and big signs.

Mr. Morehead and family of El Paso, Tex., who occupied one of the Russell cottages on Oregon avenue last season, will return to their old quarters by the end of June.

C. J. Wilder of the Southern Pacific Railroad has taken the Burt cottage on Fourth street for the summer.

A representative of the Sunday World visited Santa Monica today. After "noising" around and ascertaining that there had been some savage inquiries after the author of last Sunday's article from Santa Monica, laughingly remarked that the author of that article is in the town and is a member of the local press.

An effort is now being made to secure enough passengers to induce the company to run a special train tomorrow (Saturday) evening to the city, to witness the Shamrock, the great war steamer, in the harbor.

The fog cleared away yesterday morning and the afternoon was delightful. C. W. Bell will enter some of the events in the field sports at Los Angeles last night.

The art exhibition, which so many of the people here enjoyed, at Buessert's, has closed.

A meeting of the North Pasadena Reading Circle was held last night at Thomas Hall.

Another big contingent of Pasadenaians attended the theaters in Los Angeles last night.

Mrs. C. S. Martin and Mrs. Gilmore will lunch today as guests of Mrs. Whitaker of Los Angeles.

C. W. Hunt of Port Townsend, who purchased the Permar store, is expected to arrive in town today.

The Shakespeare Club held a regular meeting yesterday afternoon at Margaret Hall, the residence of Mrs. E. E. Spaulding.

Several Pasadenaians went to Los Angeles yesterday morning to hear District Attorney McLaughlin argue the Fleming case.

A large crowd doubtless will attend the large entertainment in Williams Hall this afternoon, given for the benefit of All Saints' church.

Sunday excursions to Redondo over the Santa Fe will begin tomorrow. These proved quite popular last summer, and so they likely will this season.

Representatives from John F. Godfrey Post, G. A. R., and Phil Kearney Camp, S. O. V., will go to Glendale this evening to assist in instituting a G. A. R. post there. A campfire will follow, at which war rations will be served in profusion.

HENRY C. ROBERTS, Azusa.

the business men of this city was circulated yesterday, and calls for a mass-meeting tomorrow night. The paper states that the action of the trustees warrants a conclusion that they do not intend to encourage, but will impede the construction of the road; that their action has caused a feeling of general indignation among the people of Westminster and Garden Grove against the city of Santa Ana, and that unless some action is taken at once, the loss of the country trade is certain. The paper concludes by exhorting everyone to bend their energies to the securing of the railroad and to turn out in force.

And thus the matter stands. The railroads and anti-railroads are interested and the result of so much smoke will be apt in time to materialize into some fire, and that it will be to the satisfaction and welfare of the people and citizens' enterprise is sincerely to be hoped.

JOSE WAYBACK'S ROADS.

What Would Happen to the Town if They

The gentle spring time is with us again. It has brought with it many things, and if it has not yet brought them it is likely to. For instance, perhaps it will give us roses. Then again it may give us promise of big crops, if we are farmers, or promise of cheaper produce, if we are of the people who buy of the farmers.

There are two things which it is certain to bring. They are colds and mud. There is no excuse, however, for the certainty of the mud's coming, and if it is to arrive the colds would, many of them, be side-tracked before they got here. Therefore let us banish the mud.

Now that it is decided that the mud shall be banished, the next question is, How shall it be done? There is only one way of doing it, and the essentials of it are hard work one part, money one part and common sense ninety-eight parts.

The work and the money are easy enough to get, but the common sense is scarce, and a good deal of it is needed. The difficulty is that most of our pathmasters and road commissioners don't recognize what little there is of it lying around when they see it. They have a way of regarding propositions for the improvement of public roads as propositions by contractors for feeding at the public crib. In reality they are propositions for the enlargement of the public crib itself, so that its legitimate users may find more to appease their hunger, and for the improvement of its surroundings, so that those who do feed may do so with greater comfort and convenience.

Suppose we take, for instance, the township of Wayback, which is situated in a rolling country, fifteen miles from the city of Bigmarket, where all Wayback's produce must be sold if it is sold at all. There are thirty miles of road in Wayback, and they are like the roads in most country towns, mere rivers of mud in wet weather and gullies of dust when the days are dry. Estimating the cost of putting down a macadam road on pavement at \$2,000 a mile, it would cost \$60,000 to improve every inch of the road in the township.

An effort is now being made to secure enough passengers to induce the company to run a special train tomorrow (Saturday) evening to the city, to witness the Shamrock, the great war steamer, in the harbor.
